

2025 International Semiconductor Conference CAS

48th edition

7-11 October, 2025

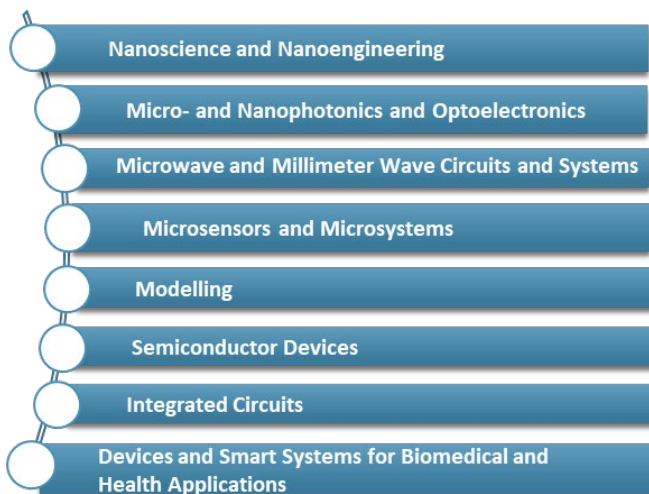

Sinaia, Romania

The International Semiconductor Conference (CAS), an [IEEE Electron Devices Society \(EDS\)](#) event, brings together every year leading academic scientists, researchers, industry specialists and students, to exchange novel research in the fields of **nanoscience, micro- and nanotechnologies, and semiconductor devices physics and technology.**

The CAS Conference provides an excellent opportunity for private companies to showcase their products and services and increase brand awareness among a diverse group of professionals around the globe.

Conference topics

Expected audience

Approx. **200 participants** from research centres, universities and industry.

The last conference edition, CAS 2024, attracted 180 attendees from 19 countries on four continents.

You can look forward to five days filled with presentation sessions, keynote lectures, satellite events, training sessions, exhibition, networking and social events, including Welcome cocktail, trip and Banquet.

Why you should attend CAS 2025

- Showcase your groundbreaking products, services, solutions and innovations
- Highlight your brand's market presence and leadership
- Be part of a unique platform to exchange, discover and discuss cutting-edge research
- Network with leading professionals and researchers from various sectors in the field and exchange experiences
- Create new partnership, expand your pool of potential customers
- Reconnect with existing customers and drive new sales
